

Text box size needs to be 16cm high and 12cm wide to fit in the planners.  
Select the textbox, click on format at the top which is highlighted orange and check the sizes on the right hand side of the screen.

# Are there any volcanoes in Britain?

Are you ready for an explosive half term?

We will be:

Geographers, finding out everything we can about volcanoes, earthquakes and tsunamis. Why do they happen? What are the consequences of a severe eruption or earthquake? How do people prepare for them? Do people actually live on volcanoes? We will also be using maps, atlases and the internet to find out where they occur. Is there a pattern to their distribution?

Historians, finding out about major eruptions, quakes and tsunamis that have happened.

Scientists, investigating sound. How do we hear sound? How can we change sounds? What affects the sounds that we hear?

We will have new set of Home Learning tasks for you to choose from too.

Here are a few websites connected with our learning:

<https://kids.britannica.com/kids/article/volcano/353902> Information about volcanoes

<https://www.timeforkids.com/g34/volcanoes-2/> What are volcanoes?

[http://news.bbc.co.uk/cbbcnews/hi/find\\_out/guides/tech/earthquakes/](http://news.bbc.co.uk/cbbcnews/hi/find_out/guides/tech/earthquakes/) - information about earthquakes

<https://www.volcanodiscovery.com/volcanoes/today.html> you can check what is actually happening each day – maybe even watch a video link

<https://www.bbc.co.uk/bitesize/topics/z849q6f/articles/zd9cxyz> learning clips and quizzes to test your volcano knowledge

We'll be doing lots of other work too, including working on our own targets in class.
