

Relationships, Sex and Health Education (RSHE) Progression Map

This progression map outlines how pupils develop both **substantive knowledge** and **disciplinary knowledge** from Early Years to the end of Key Stage 2. It ensures that learning is sequenced logically so that knowledge builds securely over time. At Ordsall, we define these types of knowledge as:

Substantive knowledge: The core, established facts and information within a specific subject or field of study.

Disciplinary knowledge: An understanding of the methods, theories, concepts and perspectives that are unique to a specific subject. Developing the ability to think like someone who works within a particular discipline.

Threads

Our key threads run throughout the RESPECT curriculum, providing continuity and coherence as pupils move through each year group. These recurring ideas help children make connections between different components of learning, deepen their understanding over time and build a secure foundation of both substantive and disciplinary knowledge. We have identified the following threads within our curriculum.

Families and relationships	Safe relationships	Respecting ourselves and others	Belonging to a community	Media literacy and digital resilience	Money and work	Physical health and mental wellbeing	Growing and changing	Keeping safe
----------------------------	--------------------	---------------------------------	--------------------------	---------------------------------------	----------------	--------------------------------------	----------------------	--------------

Families and relationships: Understanding the diversity of family structures and relationship types, whilst developing skills to build and maintain healthy, caring relationships. This includes exploring different ways families are formed, recognising what makes relationships positive and learning to communicate effectively with family members and friends.

Safe relationships: Learning to recognise the characteristics of healthy relationships and identify when relationships may be harmful or unsafe. This involves understanding concepts of consent, boundaries, trust and respect whilst developing skills to seek help when needed and support others in unsafe situations.

Respecting others and ourselves: Developing self-worth and understanding personal values whilst learning to appreciate and celebrate differences in others. This includes building empathy, challenging discrimination and prejudice, understanding equality and learning to treat everyone with dignity, regardless of their background, beliefs or characteristics.

Belonging to a community: Understanding our roles and responsibilities as members of various communities, from local to global. This involves exploring citizenship, democracy, human rights and how individual actions can contribute to community wellbeing whilst respecting diverse perspectives and working collaboratively with others.

Media literacy and digital resilience: Developing critical thinking skills to navigate media and digital environments safely and effectively. This includes understanding how media influences opinions, recognising reliable sources, managing online relationships and digital footprints and building resilience against cyberbullying and online risks.

Money and work: Understanding the role of money in daily life and developing financial literacy alongside awareness of career possibilities and the world of work. This includes learning about budgeting, saving, spending responsibly, understanding different jobs and careers and recognising the value of work in contributing to society.

Physical health and mental wellbeing: Learning to maintain and improve both physical and mental health through understanding how lifestyle choices affect wellbeing. This includes developing healthy habits, understanding nutrition and exercise, recognising emotions, building resilience and knowing how to access support for health concerns.

Growing and changing: Understanding the physical, emotional and social changes that occur throughout life, particularly during childhood and adolescence. This includes learning about puberty, human reproduction, emotional development and adapting to life transitions whilst maintaining positive self-image and healthy relationships.

Keeping safe: Developing awareness of potential risks and learning strategies to stay safe in various situations and environments. This includes understanding personal safety, emergency procedures, risk assessment, making informed decisions about personal safety and knowing how to seek help when faced with dangerous or concerning situations.

Disciplinary Knowledge

Within our RESPECT curriculum, we have identified the following core disciplinary areas that shape how pupils learn to think, reflect, and act as responsible and informed members of their community. Across all strands, pupils are taught to recognise concerns, seek support and understand when issues require safeguarding action beyond curriculum learning.

Relationships	Develop the skills and understanding needed to navigate interpersonal relationships and social interaction, including how to form and maintain respectful, kind and empathetic connections, manage conflict and boundaries, communicate effectively and engage positively in both face-to-face and online contexts.
Living in the wider world	Develop the skills and understanding required to engage responsibly in society, including recognising rights and responsibilities, making informed decisions, participating in communities and navigating social, economic and digital environments with confidence and awareness.
Health and wellbeing	Develop the skills and understanding to maintain physical, mental and emotional health, including how to sustain wellbeing, manage emotions, make informed choices, recognise risks and build resilience to support positive habits throughout life.

Disciplinary Vocabulary

In RSHE, disciplinary vocabulary is closely linked to the actions, processes and safeguarding behaviours pupils are learning to carry out in real-life contexts.

Rather than learning subject-specific methods, pupils develop the language needed to recognise concerns, make safe and responsible decisions, communicate boundaries and consent, seek help, report worries and understand when issues require safeguarding action beyond classroom learning.

This language is introduced, revisited and deepened across the curriculum as pupils become increasingly confident, independent and responsible.

Progression in Disciplinary Knowledge

Discipline	Nursery	Reception	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
Relationships	<p>Know how to express when they like or dislike something in a friendship.</p> <p>Know that people show kindness in different ways.</p>	<p>Know how to take turns, share, and listen to others when playing.</p> <p>Know how to ask for help if someone is unkind.</p>	<p>Know how to describe what makes a good friend.</p> <p>Know how to explain how to resolve simple disagreements.</p>	<p>Know how to describe respectful and hurtful behaviour.</p> <p>Know how to explain personal boundaries, understand that consent must be respected, and recognise what to do if boundaries are crossed.</p>	<p>Know how to describe healthy friendships and recognise early signs that a friendship may become unhealthy (unkind or unfair) or harmful (causing fear, pressure or control).</p> <p>Know how to recognise peer pressure, explain when it becomes harmful and begin to practise strategies for resisting pressure and seeking help.</p>	<p>Know how to identify different types of relationships (e.g. family, friendship, romantic) and recognise when a relationship may feel unsafe, harmful or controlling.</p> <p>Know how to explain the importance of consent and trust in relationships.</p>	<p>Know how to explain how to maintain respectful relationships by recognising and respecting consent, including when someone changes their mind or feels uncomfortable and during disagreements.</p> <p>Know how to identify signs of bullying or manipulation, understand the role of bystanders and know how and when to report concerns</p>	<p>Know how to evaluate relationships, recognising the difference between unhealthy and harmful relationships, the role of consent, and knowing how to report concerns.</p> <p>Know that some behaviours, such as abuse, exploitation and harmful online image sharing, are illegal, and that laws exist to protect children and provide routes for reporting and support.</p>

Discipline	Nursery	Reception	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
Living in the wider world	<p>Know how to talk about their class, home and nursery as groups they belong to.</p> <p>Know that rules help us get along.</p>	<p>Know how to recognise that people do different jobs and play different roles in the community.</p> <p>Know how to show respect for differences.</p>	<p>Know how to describe the different groups they belong to and what rules they follow.</p> <p>Know how to describe how to care for the environment.</p>	<p>Know how to talk about people who help us in the community and what they do.</p> <p>Know how to explain the difference between needs and wants.</p>	<p>Know how to explain how rules and laws keep us safe in school and the wider world.</p> <p>Know how to describe safe and responsible online behaviour, including protecting personal information and recognising when something online feels wrong, and know when and how to seek help.</p>	<p>Know how to explore diversity in society and explain that everyone has rights and responsibilities.</p> <p>Know how to question and critically reflect on what they see online to decide whether content is reliable or misleading, and explain how to report concerns.</p>	<p>Know how to explore how people make choices about money and spending, including needs, wants and consequences, and explain how advertising and influence can affect decisions.</p> <p>Know how to recognise and challenge stereotypes in media and society and explain why stereotypes can be unfair or harmful.</p>	<p>Know how to evaluate online information, recognise online pressures (including requests to share images or personal information), and explain how to report concerns.</p> <p>Know how to explain how democracy, laws and rights affect people in the UK, including how laws protect individuals from harm and discrimination.</p>
Health and wellbeing	<p>Know how to name basic emotions.</p> <p>Know how to describe simple ways they take care of themselves (e.g., washing hands).</p>	<p>Know how to talk about changes (e.g., growing taller).</p> <p>Know how to explain how food, sleep, and hygiene keep them healthy.</p>	<p>Know how to name different emotions and recognise how they feel in their bodies.</p> <p>Know how to explain how to keep their bodies and minds healthy.</p>	<p>Know how to identify ways to manage emotions and ask for help.</p> <p>Know how to talk about changes in their body and emotions.</p>	<p>Know how to explain the impact of sleep, nutrition, and exercise on wellbeing.</p> <p>Know how to describe and begin to practise strategies for managing worry, anger or sadness, and explain when they should ask for help.</p>	<p>Know how to manage changes to routines or emotions, and recognise when to seek support.</p> <p>Know how to explain the risks associated with being unsafe near roads, water or in the sun and identify actions that reduce those risks.</p>	<p>Know how to explain physical and emotional changes during puberty and recognise that these changes happen at different times for different people.</p> <p>Know how to assess risks to health, including drugs and alcohol and identify actions that reduce those risks.</p>	<p>Know how to describe strategies to maintain positive mental health and explain how and where to access support services when mental health concerns become serious.</p> <p>Know how to identify potential risks, emotional changes and new responsibilities associated with transition to secondary school and know where to seek support.</p>

Knowledge by Year Group

Nursery	
Relationships	
Disciplinary Knowledge	Substantive Knowledge
Know how to name important people in their life and talk about how they help or care for them.	Know that people in our lives care for us, like our family, friends and teachers.
Know how to describe what makes their family special using pictures, stories or talk.	Know that families can look different but all families help us and love us.
Know how to tell a grown-up if they feel upset, scared or confused.	Know that we can talk to a grown-up if we are sad or worried.
Know how to name parts of their body, say which parts are private and tell a trusted adult if someone touches private parts.	Know that some parts of our body are private.
Know how to describe how different kinds of touch feel (e.g. hugs vs. bumps).	Know that some touches feel nice and some touches do not.
Know how to say "no" clearly when something feels wrong or uncomfortable.	Know that it is okay to say "no" to something that feels wrong.
Know how to ask, "Can I?" before touching someone else or their belongings.	Know that we must ask before touching someone else.
Know how to play kindly by sharing and taking turns.	Know that being kind means sharing and taking turns.
Know how to recognise kind and unkind behaviour in simple situations.	Know that unkind behaviour can make people feel sad.
Know how to use polite words (e.g. please, thank you) and listen when others speak.	Know that we use good manners and listen to others.
Vocabulary	
family carer friend trusted adult private parts comfortable touch uncomfortable touch happy sad angry kind unkind	
Living in the wider world	
Disciplinary Knowledge	Substantive Knowledge
Know how to follow simple rules and routines in different places (e.g. classroom, dinner hall).	Know that we follow different rules and routines in different places to help keep people safe.
Know how to recognise when someone has different likes, needs or emotions..	Know that we all have different likes and needs.
Know how to help care for living things, like watering plants or feeding pets.	Know that people, animals and plants need looking after.
Know how to put rubbish in the bin and reuse or tidy things to care for the environment (including tidying away resources)	Know that we can look after our world by tidying up and not wasting things.
Know how to talk about what they use technology for, like games or pictures.	Know that we can use computers and tablets to learn and play.
Know how to ask for help if something on a screen is confusing or scary.	Know that we must use screens safely and ask for help if something goes wrong.
Know how to talk about what they like doing and what they are good at.	Know that everyone is good at different things.
Know how to name different jobs people do and describe what they help with.	Know that people have jobs and help us, like doctors and shopkeepers.
Know how to talk about where people work and who helps them (e.g. dentist, shopkeeper).	Know that people can work in different places like schools, shops or hospitals.
Know how to pretend to use money in play and talk about things we buy.	Know that people can use money to buy things.

Vocabulary	
routine litter plants pets money buy doctor shopkeeper	
Health and wellbeing	
Disciplinary Knowledge	Substantive Knowledge
Know how to talk about what helps them feel good, like running, resting or eating fruit.	Know that we keep healthy by eating, moving, resting and sleeping.
Know how to wash hands properly, explain why it helps us stay well and tell a trusted adult if they feel unwell.	Know that we wash our hands to remove germs.
Know how to choose healthy snacks from a selection with support.	Know that fruit, vegetables and water help our bodies stay strong.
Know how to describe ways to stay active, like playing, walking or climbing.	Know that playing and running help us feel happy and strong.
Know how to name simple emotions like happy, sad or angry and show how they feel.	Know that we can talk about our emotions and what makes us happy or sad.
Know how to talk about things they like and what makes them special.	Know that everyone is special and has things they are good at.
Know how to say what they can do now that they couldn't before (e.g. put on coat, use scissors).	Know that we are growing and learning new things all the time.
Know how to keep safe in the sun by wearing a hat or staying in the shade.	Know that we stay safe in the sun by wearing hats and drinking water.
Know how to say when something is not safe for their age, like a scary TV show or sharp object.	Know that some toys and games are only for older children.
Know how to ask for help if something they see on a screen makes them feel upset.	Know that we must tell a grown-up if we see something scary on a screen.
Vocabulary	
healthy food germs hygiene sun safety body parts (basic) sleep exercise

Year 1	
Relationships	
Disciplinary Knowledge	Substantive Knowledge
Know how to name the people who care for them and explain how they help in their lives.	Know that people such as family members, friends and teachers care for us and help us in different ways.
Know how to talk about their own family and explain that other families may look different but still offer love and care.	Know that families can look different, including single-parent, same-sex and extended families but all families should offer love and care.
Know how to tell a trusted adult if they feel worried, upset or unsafe in their family or relationships.	Know that it is important to talk to a trusted adult if something at home or in a relationship is worrying or upsetting.
Know how to recognise when someone is hurt or upset and explain who they can go to for help.	Know that people can be hurt physically or emotionally and help should be sought when this happens.
Know how to describe which parts of the body are private and explain what to do if someone tries to touch them there.	Know that some parts of the body are private and should not be touched by others.
Know how to identify different types of touch and explain how those types of touch make them or others feel.	Know that different types of touch can make people feel comfortable or uncomfortable.
Know how to say “no / stop” clearly if someone touches them in a way that feels wrong and move away from an uncomfortable situation and seek help from an adult. Practise persistence until someone helps.	Know that it’s okay to say no to touch that makes you feel unsafe or unhappy and that they should tell a trusted adult if they feel unsafe.
Know how to ask for permission before touching others and understand that consent must be given freely and can be refused at any time.	Know that we should ask for and give permission before touching others.
Know how to describe and give examples of kind and unkind behaviour and explain how it can affect others.	Know that kind and unkind behaviour can happen in and out of school and can affect how people feel.
Know how to show respect by following class rules, being polite, sharing and taking turns with others.	Know that respect means treating others politely, following rules, sharing and taking turns.
Vocabulary	
consent personal boundaries single parent same-sex, extended	
Living in the wider world	
Disciplinary Knowledge	Substantive Knowledge
Know how to follow rules in different settings and explain why rules are important at home, school and in the wider community.	Know that there are different rules in different places, such as at school, at home and in the community.
Know how to recognise and respect the different needs of others in their class and community.	Know that people have different needs and we should treat others with care and respect.
Know how to show care for people, animals and nature through kind actions and responsible behaviour.	Know that we can care for people, animals and the natural world in different ways.
Know how to reduce waste and recycle to help look after the environment.	Know that looking after the environment includes actions like reducing waste and recycling.
Know how to use digital devices to play, learn and communicate safely and respectfully.	Know that people use the internet and digital devices for learning, communication and enjoyment.
Know how to explain when it is safe to use the internet and when to ask for help if they are worried.	Know that the internet has benefits but must be used safely and respectfully.
Know how to find information online safely and explain who to talk to if something makes them feel uncomfortable.	Know that people can find out information and talk to others online, but some things online are not for children and they need to stay safe and ask for help if unsure.
Know how to talk about their own strengths and celebrate what makes them and others special.	Know that everyone has different strengths and abilities, both in and outside of school.
Know how to link different skills and interests to jobs people do in school and the wider world.	Know that different strengths and interests are useful for different jobs and roles.
Know how to describe the roles of people who help in the community and explain how they keep us safe and supported.	Know that some people in the community have jobs that help keep us safe, healthy and supported.
Vocabulary	
respect responsible environment recycling internet screen time	

Health and wellbeing	
Disciplinary Knowledge	Substantive Knowledge
Know how to look after their body and mind each day by eating well (choosing a healthy snack), staying active and getting enough rest and sleep.	Know that being healthy means looking after our body and mind through daily habits.
Know how to follow basic hygiene routines such as washing hands, covering coughs, using tissues and brushing teeth.	Know that germs spread illness and we need to follow hygiene routines, like handwashing to stop the spread of germs.
Know how to make healthy food and drink choices and explain why too much sugar is unhealthy.	Know that some foods and drinks are healthier than others and too much sugar is not good for our health.
Know how to choose different ways to play and balance indoor, outdoor and screen time to stay active and well.	Know that physical activity and different types of play help to keep our bodies and minds healthy (indoor and outdoor play, screen-based play, etc.)
Know how to ask for help from trusted adults like parents, teachers, doctors and lunch staff to stay healthy and safe.	Know that people such as parents, doctors, nurses, dentists and school staff help us stay healthy and safe.
Know how to stay safe in the sun by wearing sunscreen, protective clothing and drinking water.	Know that we must protect ourselves in the sun to avoid getting sunburnt or unwell.
Know how to talk about what makes them special and share their likes, dislikes and strengths with others.	Know that everyone has things that make them special, including their likes, dislikes and what they're good at.
Know how to recognise different emotions in themselves and others and talk about how to manage them.	Know that people can feel a range of emotions and that these can affect how they behave.
Know how to follow safety rules at home, school and in public places, including understanding age limits on games and activities.	Know that there are rules to help keep us safe, including age restrictions on games, toys, play areas and activities.
Know how to stay safe online and tell a trusted adult if something they see makes them feel worried, scared or uncomfortable.	Know that there are rules for staying safe online and that we should tell a trusted adult if something we see makes us feel worried or scared.
Vocabulary	
physical activity sugar healthier habit hygiene age restrictions	

Year 2	
Relationships	
Disciplinary Knowledge	Substantive Knowledge
Know how to show kindness, honesty and listening skills to be a good friend and include others in play.	Know that being a good friend means showing kindness, listening, honesty and including others.
Know how to make new friends by joining in, starting conversations and showing interest in others.	Know that people can make friends in different ways and that friendships need to be cared for.
Know how to talk calmly and kindly to resolve disagreements with friends.	Know that arguments between friends can happen and there are ways to solve them kindly and respectfully.
Know how to recognise when they or someone else feels lonely or unhappy and ask a trusted adult for help.	Know that people can feel lonely or unhappy, and it's important to ask for help or support others who may feel this way.
Know how to recognise bullying behaviour and explain what to do if they or someone else is being bullied.	Know that bullying is when someone hurts or upsets someone on purpose and repeatedly, including online.
Know how to recognise and respond to hurtful behaviour online or offline by speaking to a trusted adult.	Know that hurtful behaviour can happen in person or online and it should be reported to a trusted adult.
Know how to tell the difference between secrets that are safe (like surprises) and those that make them feel worried or uncomfortable.	Know that secrets and surprises are different and telling a trusted adult helps keep people safe. Know that it is not always right to keep a secret if it relates to safety.
Know how to say no when someone is pressuring them to do something unsafe and seek help from a trusted adult.	Know that people can be pressured to do things they are unsure about and they can say no and ask for help.
Know how to talk about similarities and differences between themselves and others in a respectful way.	Know that people can have things in common and also be different and that both should be respected.
Know how to share ideas, listen to others and take turns when playing or working in a group.	Know that we can work and play well with others by listening, taking turns, sharing ideas and respecting different views.
Vocabulary	
bullying online bullying safe secrets unsafe secrets disagreements lonely inclusion pressure	
Living in the wider world	
Disciplinary Knowledge	Substantive Knowledge
Know how to take part in different groups (e.g. class, teams, clubs) by contributing, helping others, and following shared rules.	Know that they belong to different groups (e.g. class, teams, faith groups) and have roles and responsibilities within them.
Know how to follow rules and take responsibility for their actions in school and in the community.	Know that people have rights and responsibilities at school and in the wider community.
Know how to include others, especially those who are different from them and help people feel part of a group or community.	Know that communities include people from different backgrounds and should help everyone feel welcome and included.
Know how to recognise and respect ways they are the same as or different from others.	Know that all people are equal and may have similarities and differences that make them unique.
Know how to use devices like phones, tablets and computers safely to access the internet.	Know that people use the internet through devices like phones, tablets and computers for different purposes.
Know how to explain the ways they use the internet for learning, fun and communication.	Know that the internet can be used for information, communication, learning and entertainment.
Know how to question whether information they see online is true or just for fun, and ask a trusted adult if unsure.	Know that some content online is true and some is for entertainment — not everything online is reliable.
Know how to recognise and use different types of money and ways to pay for things (e.g. coins, cards, digital payments).	Know that money can come in different forms and is used to pay for things.
Know how to talk about how people earn money, save it and keep it safe.	Know that people earn money by working and can choose how to spend, save or keep it safe.
Know how to make simple purchases with coins, compare needs and wants and explain why some choices cost more.	Know that people have responsibilities and that money is limited so choices must be made between needs and wants.
Vocabulary	
in-game purchases faith	

reliable information online information equal rights responsibilities device reliable source contribute

Health and wellbeing

Disciplinary Knowledge	Substantive Knowledge
Know how to follow healthy routines like getting enough sleep, eating well, exercising and keeping clean.	Know that healthy routines like sleep, exercise, rest and hygiene help us grow and stay physically and mentally well.
Know how to care for their teeth by brushing twice a day, visiting the dentist and making healthy food and drink choices.	Know that brushing teeth, visiting the dentist and eating less sugar helps to protect our dental health.
Know how to explain that medicines are only to be taken with a trusted adult and who to tell if someone has taken the wrong medicine.	Know that medicines, including vaccinations, can help us stay healthy but they must be used correctly and only with an adult's permission.
Know how to describe their emotions using words and explain how different situations can make people feel.	Know how to name and describe a range of emotions and that everyone experiences emotions differently.
Know how to use strategies such as playing, breathing, talking or relaxing to feel better when they feel upset or worried.	Know that there are healthy ways to feel calm or better, such as playing, talking or spending time with others.
Know how to ask for help when they feel strong emotions such as sadness or fear and support others who may feel the same.	Know that people can experience big emotions such as grief or worry and it is important to ask for help when needed.
Know how to describe how their body and needs change as they grow and what they might be able to do as they get older.	Know that humans grow from babies to adults and that our needs, bodies and responsibilities change as we grow.
Know how to name the main parts of their body, including private parts, and explain that these are personal.	Know the names of the main parts of the body, including external genitalia (e.g. penis, vulva, vagina, testicles).
Know how to spot dangers at home, outside and online and follow rules to stay safe in each of these places.	Know that we need to keep ourselves safe at home, at school, in public and online by following rules and recognising risks.
Know how to respond safely if someone is hurt and explain how to call 999 and ask for help in an emergency.	Know that in an emergency, we can get help by calling 999 and explaining what has happened and that some adults have jobs to keep us safe.

Vocabulary

penis vagina testicles mental health dental health medicine vaccinations grief risk vulva scrotum nipples immunisation antibiotics

Year 3	
Relationships	
Disciplinary Knowledge	Substantive Knowledge
Know how to describe their own family and explain that other families can look different but still provide love, care and stability.	Know that families can look different (e.g. single parents, same-sex parents, blended, adoptive, foster families) but all can offer love, stability and support. Know that marriage and civil partnership are legally recognised commitments between two adults and that they are one way some families are formed.
Know how to show care and support for family members and recognise when someone might need help or encouragement.	Know that being part of a family involves caring for and supporting each other, especially during difficult times.
Know how to identify when something at home is making them feel unhappy or unsafe and how to ask for help.	Know that sometimes things in a family can make someone feel unhappy or unsafe and it's important to tell a trusted adult.
Know how to decide what information is safe to share with others, including online and what should be kept private.	Know what types of information are appropriate to share with others, including online and what should be kept private.
Know how to ask for permission, respect their own and others' personal space and privacy, both offline and online and recognise and report when boundaries are crossed.	Know that people have different boundaries and that privacy and consent are important both in person and online for safety and respect.
Know how to use basic online safety strategies like creating strong passwords, using trusted websites and involving adults.	Know basic ways to stay safe online, such as using passwords, trusted websites and trusted adult supervision.
Know how to recognise bullying and explain how it can affect people, including how online bullying is similar to face-to-face bullying.	Know that bullying (including online) is unkind and unacceptable and can have serious effects on those involved.
Know how to respond if they or someone else is being bullied, including telling a trusted adult and showing support.	Know what to do and who to talk to if they or someone else is experiencing bullying or hurtful behaviour.
Know how to show respectful behaviour by listening, helping, taking turns and including others in different situations.	Know that respectful behaviour includes helping, listening, including others and being responsible.
Know how to treat others with respect and politeness at home, school, online and in the community and explain what self-respect means.	Know that people show respect in different ways at home, school, online and in wider society and that everyone deserves to be treated politely and with self-respect.
