

# Ordsall Primary School

## What we are learning during the Autumn term in Year 6...

### English

We'll be reading 'How to Live Forever' by Colin Thompson and our work around this book will lead us to writing our very own versions of the story.

### Maths

Our White Rose Maths work will lead us to looking at Place Value in the Autumn term with numbers up to 10,000,000. We will also be focusing on methods for addition, subtraction, multiplication and division which will help us throughout the term in tackling practice SATs papers.

### Science

In Science, we will be looking at the circulatory system which lead us to dissecting pig's hearts! We will also be looking at light & shadows as we link this into our work around the Ancient Greeks.

### History

In History, we'll be travelling back in time to learn about the Ancient Greeks.

### Geography

We will be finding out about Fair Trade for our Geography work which will lead us to understanding the benefits of buying and shopping Fair Trade products.

### Art

In Art, we will be creating abstract art with images linked to the heart. We will also be designing and making Greek pottery and plates.

### Design & Technology

We'll be designing and making something brilliant! Whether it's building, cooking, or crafting, we'll plan, make, and test our creations like real inventors.

### Computing

We'll be using computers to create games on Scratch, building on the work we previously did in Year 5.

### Religious Education

Our RE learning will lead us to looking at words of wisdom, from both religious and inspirational figures.

### RESPECT

We will be starting DAaRT & Ms Carter will be coming in each week to speak to the children about all things DAaRT related. At the end of our work, we will be having a graduation in the classroom where certificates will be handed out and memories read.

### Music

We'll be continuing to follow our Charanga work & learning 'Happy' by Pharrell Williams, as well as looking at some classic jazz music.

### PE

We will be looking at two different types of invasion games over the first term, as well as developing our fitness & dance skills.

### French

We'll be learning to say fun words and phrases in French like greetings, colours and food — and having a go at speaking, listening and singing in another language!
